

Workshop Two - The Alien Activity

Imagine that you are an alien coming to planet Earth for the first time. What would you see in terms of how boys and girls (or men and women) are expected to behave, act and look? Can you make a list?

A pink alien character with a purple bow on its head, standing in the center of the first section. It has large black eyes and is making a peace sign with its right hand. Surrounding the character are four empty speech bubble shapes: two on the left and two on the right, each with a tail pointing towards the character.

A green alien character with a large single eye and two antennae, standing in the center of the second section. It has a friendly expression and is waving with its right hand. Surrounding the character are four empty speech bubble shapes: two on the left and two on the right, each with a tail pointing towards the character.
