## My One Day in Lockdown diary

Good or bad, we'd love to hear your thoughts about the pandemic or how you or your family have coped since being in lockdown. You might want to write about an event but try and describe how you were feeling. For example, you might be happy not being in school, or missing your friends, or worried about returning to school. You might be surprised by deeper thoughts and feelings that come up as you write.

7

## What next?

You've created your graffiti artwork and completed your 'My One Day in Lockdown' diary...so what next. We want to display your artwork on our website, in schools, local museums and libraries, as an important reminder of how the pandemic affected the lives of young people.

8

## Get your artwork seen!

If you want your artwork and diary displayed, place these inside the stamped addressed envelope provided, but make sure you put your name and age on the back first, so we know who it belongs to, and post them back to us. Or feel free to email us any images of your completed artwork to: [info@priority1-54.com](mailto:info@priority1-54.com)

## Looking after yourself, friends and family

We know the pandemic and being in lockdown has affected all of us, in many different ways. Some good, and some not so good. If you're unhappy or facing a difficult situation, talk to someone you trust. That could be a family member, a friend or try reaching out to organisations who support young people. See the leaflets we've included in this pack.

## Tell us what you think

We always like to hear back from young people about our work. Tell us what you think about art pack, is there something that you really liked or something you might change. We've included a feedback form for you to complete.
